

# Appraisal to Production 1/2 Day Workshop

## Applications in Conventional Plays

**Course:** Appraisal to Production APT 1/2 Day Workshop

**Date:** Friday 21st October, 2022

**Location:** Norris Convention Center - City Center, Houston, Tx

**Time:** Noon - 5.00pm

**Cost:** Free, but spaces are limited. Lunch will be provided from noon - 1.00pm. Please signup using the email address below to guarantee a spot.

**Post Course Networking Reception:** 5.00pm - 7.00pm

Continue the discussion with the instructors, and your fellow attendees at the post-course drinks reception being held in the Norris Convention Center - City Center.

### Who Should attend?

Geologists, petrophysicists, reservoir engineers & other generalists/specialists interested in understanding:

- Sample & data collection best practices for development and appraisal programs.
- Deriving fluid properties from mud gas data (APT Girasol™) and produced oil or gas geochemistry.
- Evaluation of reservoir communication, connectivity and production allocation.
- Earth model and geochemistry integration for fluid property prediction
- Integrated workflows using earth models & geochemistry in infrastructure lead exploration (ILX)

Attendees are welcome to send specific questions or provide datasets for discussion prior to the workshop commencing.

## Workshop Instructors

**Eric Michael**  
Chief Geochemical Advisor  
APT USA

**Dr. Richard Patience**  
Petroleum Geochemist Consultant  
APT USA
